

Remarks

This Supplemental Amendment is being filed in connection with the Amendment and RCE filed earlier today in the above captioned application. As mentioned in the earlier filed Amendment, the drawings were objected to because Figure 1E was said not to clearly relate to the Brief Description of the Drawings ("Brief Description") contained on page 10. Specifically, the Examiner stated that "Mouse RGM-A-AP and RGM-B-AP" in the Brief Description cannot be correlated to "cRGM-AP, mRGM-1AP and mGM5-AP" in Figure 1E. Moreover, the Examiner stated that the 3 figures in Figure 1E should be separately labeled as "A, B C".

Applicants herewith submit a revised Figure 1E. Specifically, in this revised Figure 1E, the 3 figures in Figure 1E have been separately labeled (as E', E" and E''') as suggested by the Examiner. A corresponding amendment has been made to the specification as well. Moreover, a marked up version of the drawing changes is also submitted herewith.

In view of the amendment to the description of Figure 1E and the changes to this drawing, Applicants submit that this objection is now moot and should be withdrawn.

REQUEST FOR RECONSIDERATION

Reconsideration is respectfully requested. Applicants believe that the present application is in condition for allowance. Should the Examiner have any questions or would like to discuss any matters in connection with the present application, the Examiner is invited to contact the undersigned at
